Our 'Key Three'

Instead of a work experience placement in Year 10, which may vary in quality and engagement, we offer a pledge to provide three key career strands as a student moves through Year 9 and 10.

Strand One – Careers fair

We want to bring every student to a careers fair to give them a chance to enquire about a wide range of careers

Strand Two – Visit to and by an employer

We want to bring every student to a place of employment to show them how these spaces function and for at least one employer to speak to the students in school

Strand Three – Access to organisations

We want students to engage with a range of organisations, like Construction Youth Trust, Young Enterprise, Lawyers for Schools, to ensure aspiration remains high
