

Geography

KS3 Curriculum for Geography

In KS3 our students follow a curriculum that is broader and more ambitious than the national curriculum.

	Half-term 1	Half-term 2	Half-term 3	Half-term 4	Half-term 5	Half-term 6
Year 7	Becoming a Geographer	Our United Kingdom	Coasts	Africa arise!	Incredible cities	End of year exams
	What is Geography?	What does the Geography of the UK look like?	What happens when the land meets the sea?	What are the challenges and opportunities facing Africa?	How are cities changing in the 21 st century?	
Year 8	Earthquakes & volcanoes	Population & migration	Rivers	Amazing Asia!	Extreme environments	End of year exams
	Can we ever know enough about earthquakes and volcanoes to live safely?	How are populations changing?	What happens when water travels from source to mouth?	How is Asia being transformed	What challenges and opportunities do hot and cold environments present?	
Year 9	Development	Newly Emerging Nigeria	Ecosystems and tropical rainforests	Climate change	The Middle East	End of year exams
	How can we close the development gap?	How is Nigeria developing as a newly-emerging economy?	How do ecosystems and tropical rainforests operate?	What are the causes, effects and solutions to climate change?	Why is the Middle East an important world region?	

KS4 Curriculum for Geography
